

ABOUT
PEXA

SILENT

RESISTANCE

EASY
INSTALLATION

PEXA is a full range of frameless wipers. This technology allows to eliminate noises due to reduced resistance surface. The traditional skeleton structure was replaced by inner elastic metal rail ensuring perfect fitting for each window shape and making the removal of rainfall faster and more efficient.

Aerodynamic design and built-in spoiler along the entire length of the wiper significantly improve steady downforce to the surface of the window glass resulting in very quiet work.

ADVANCED WIPING TECHNOLOGY:

- Frameless technology
- Aerodynamic profile
- High quality rubber eliminating friction
- Adapted to different shapes of window glass
- System of universal adapters
- Smooth wear due to steady downforce
- High resistance to insects and dirt
- Longer life
- Adapter grips made of steel instead of plastic

COMFORT FOR USERS:

- Wide range of lengths
- Simple and user-friendly reference system
- Attractive and practical packaging
- Simple installation
- Elegant, slim shape
- System of QR codes with video guide

High quality inner steel spring adapts each wiper to different window shapes

Quick and easy installation of adapters

Aerodynamic design

One universal wiper with 9 adapters system covers most of the car applications on the European market

Excellent, highest quality rubber blend (containing eg. teflon) provides noiseless work, resistance to temperature changes and longer life than conventional wipers
